## MALAWI ENGINEERING INSTITUTION

### Applications for Registration & Renewal of Membership to Practice for FY25/26

MEI, established under the Malawi Engineering Institution Act, 2019, regulates engineering and allied disciplines in Malawi.

#### 1. Application for Registration

The Engineering Registration Council (ERC) of MEI reviews and approves membership applications quarterly, guided by the law. This schedule also applies to Professional Engineering Qualifying Examinations and takes effect immediately, as outlined in the membership application calendar below.

QUARTER	PERIOD	DEADLINE	RELEASE
Q1	Apr - June	15th May	30th Jun
Q2	July - Sept	15th Aug	30th Sept
Q3	Oct - Dec	15th Nov	15th Dec
Q4	Jan - Mar	15th Feb	15th Mar

#### 2. Renewal of Membership to Practice in the 2025/2026 Financial Year

All those wishing to practice engineering in Malawi must renew their membership as follows.

**Renewal Period:** 1st March – 30th April 2025  
**Late Renewals:** A 50% late fee applies after 30th April 2025

Failure to comply may result in prosecution and loss of practice rights in Malawi.

## BROCHURE

The need to envision a 20-year development trajectory for Africa is important as Africa needs to better adapt its development agenda due to ongoing global transformations. In recent periods, reduction in the number of conflicts, renewed economic growth and social progress have provided a new impetus for development. The need for Africa to adapt its development agenda to the global environment centered development, gender equality and youth empowerment, changing global context and increased globalization and the ICT revolution, the increased unity of Africa which makes it global power to be reckoned with and capable of relying support around its own common agenda, and emerging development and investment opportunities in areas such as agri-business, infrastructure, development health and education all well as the value addition in African commodities.

Agenda 2033 encapsulates not only Africa's Aspirations for the future but also identifies key Flagship Programmes which can boost Africa's economic growth and development and lead to the rapid transformation of the continent. Agenda 2033 also identifies key activities to be undertaken in its 30 year implementation Plan which will ensure that Agenda 2033 delivers both quantitative and qualitative Transformational Outcomes for Africa's people.

## National &amp; REC's Development Priorities

Agenda 2062 not only considers Africa's continued growth aspirations but also acknowledges that for the whole continent to develop, the premises of Agenda 2062 must be adopted at regional and country level. At the inception of Agenda 2062, the National Development Plans of Member States were as well as the strategic plans of the regional Economic Communities were reviewed and the focus areas of their development priorities have been included in the First Ten Year Implementation Plan to ensure that their priorities in the next term converge with the priority areas contained in the 50 year framework development.

AGENDA 2062 is Africa's blueprint and master plan for transforming Africa into the global powerhouse of the future. It is the continent's strategic framework that aims to deliver on its goal for inclusive and sustainable development and is a concrete manifestation of the pan-African drive for unity, self-determination, freedom, progress and collective prosperity pursued under Pan-Africanism and African Renaissance.

- Sustainable and inclusive economic growth
- Human Capital Development
- Agriculture, value addition and agri-businesses develop
- Employment generation, especially the youth and women
- Social Protection
- Gender/ Women development and youth empowerment
- Good governance including capable institutions
- Infrastructural development
- Science, Technology, Innovation
- Manufacturing based industrialisation
- Peace and security
- Culture, Arts and Sports

### Flagship Projects of Agenda 2063

[illegible]

#### INTEGRATED HIGH SPEED TRAIN NETWORK

The project aims to connect all African capitals and commercial centers through an African high speed train network thereby facilitating the movement of goods, factor services and people. The increased connectivity by rail too aims to reduce transport costs and relieve congestion of current and future systems.

#### FORMULATION OF AN AFRICAN COMMODITIES STRATEGY

The development of a continental commodities strategy is seen as key to enabling African countries to add value, export higher rents from their commodities, integrate into the global value chains, and promote vertical and horizontal diversification anchored in value addition and local content development. The strategy aims to transform Africa from simply being a raw materials supplier for the rest of the world to a continent that actively uses its own resources to pursue the economic development of Africans.

#### ESTABLISHMENT OF THE AFRICAN CONTINENTAL FREE TRADE AREA (AFCTA)

**ESTABLISHMENT OF THE AFRICAN CONTINENTAL FREE TRADE AREA (ACFTA)**  
Accelerate Intra-African trade and boost Africa's trading position in the global market place. The ACFTA aims to significantly accelerate growth of intra-Africa and use trade more effectively as an engine of growth and sustainable development by doubling intra-Africa trade, strengthening Africa's common voice and policy space in global trade negotiations.

## THE AFRICAN PASSPORT AND FREE MOVEMENT OF PEOPLE

firming restrictions on Africa's ability to travel, work and live within their own continent. The initiative aims at strengthening Africa's ties, which remain generally restrictive in movement of people despite political commitments to bond down borders with the view to promoting the issuance of visas by Member States to enhance free movement of all African citizen in all African countries.

#### IMPLEMENTATION OF THE INGA DAM PROJECT

The development of the Pigo Dam is expected to generate 43,250 MW of power to support current regional needs and their combined service to transform African dam traditional to modern sources of energy and ensure access of all Africans to clean and affordable electricity.

## ESTABLISHMENT OF A SINGLE AFRICAN AIR-TRANSPORT MARKET (SAAATM)

The SAAIM aims to secure intra-regional connectivity between the coast cities of Africa and create a single unified air transport market in Africa, as an impetus to the continent's economic integration and growth. SAAIM provides for the full liberalization of intra-African air transport services in terms of market access, route rights for scheduled and freight or services by eligible airlines thereby improving air services connectivity and air carrier efficiencies. It removes restrictions on ownership and provides for the full liberalization of frequencies, tariffs and capacity. It also provides legally criteria for African community carrier, safety and security standards, mechanisms for fair competition and dispute settlement as well as corporate autonomy.

#### ESTABLISHMENT OF AN ANNUAL ECONOMIC FORUM

The annual African Economic Summit is a multi-state biennial meeting that brings together the African political leadership, the private sector, academics and civil society to reflect on how to accelerate Africa's economic transformation harnessing its vast resources to enhance the development of the African people. The Summit discusses key opportunities as well as the constraints that hamper economic development and proposes measures to be taken to realize the Aspirations and goals of Agenda 2063.
